HUGE MAJORITY IN THE HOUSE

Since 1865, the Republican Hold on the Government Has Never Been So Strong

(Associated Press)

New York, Nov. 5.—With Harding's electoral vote virtually fixed at 400 out of a possible 531 and the new Senate set down with 59 republicans and 37 democrats, republican leaders today awaited belated returns from eight contests to decide the republican House majority.

So far the republicans are assured of 286 House members to 137 for the democrats and four of other designations, giving the republicans the greatest majority ever held in the House.

One woman representative is assured, Miss Alice Robertson, an Oklahoma farmer and restaurateur, winning.

BRYAN'S ADVICE, AS USUAL IS BUM

Chicago, Nov. 5.—Wm. Jennings Bryan gave out a statement suggesting that President Wilson should resign at once.

"Now that the American people have decisively declared against the league of nations as written by the president," said Mr. Bryan, "it would seem advisable to carry out the verdict immediately. This can be easily done."

"The president should resign at once and turn over his office to Mr. Marshall on the condition that on the convening of Congress in December, Mr. Marshall appoint Senator Harding secretary of state and himself resign. The law then would make Mr. Harding president and with the republican support in Congress he could at once put into operation the plan for the United States to enter into an association of nations for peace."

Investigation Begun of Frauds in New York in Tuesday's Presidential Election

(Associated Press)

New York, Nov. 5.—District Attorney Swann has begun a formal investigation of alleged frauds in the election as a result of finding twenty-six ballots marked for the democratic ticket at the mouth of a sewer. The street cleaners have been requested to search underground passages for more votes.

AUTO SALES COMPANY'S MODERN IMPROVEMENTS

Mr. Mack Taylor, proprietor of the Auto Sales Company of this city and agent for the Dodge automobiles, has about completed improvements on his building inside and out, making it not only one of the most attractive and neatest institutions of its kind in the city, but completely equipped with the parts that make up this popular car that at least five automobiles could be built right in his shop.

The office is most inviting and comfortable. It is enclosed from the rest of the building by canary beaver board with trimmings of blue, the color of the Dodge advertising matter. The rear of the building is sectioned off for car service and can be entered from the back or side, or if necessary from the front. It is so neatly and conveniently arranged that it only requires a second to find the most minute, or largest necessity for car trouble. Mr. Taylor believes in filling orders for his customers immediately and when there is a call for any part of the Dodge car he has it right at hand.

On the outside of this building to the left he has arranged for the washing and polishing of all makes of cars. The wash rack is equipped with a spraying device of compressed air and water, in this manner preserving the paint on the car.

Mr. Taylor will further enhance the attractiveness of his place by adding ferns, as he had already done at the Willard service station and it is one of the beauty spots of the city.

AUCKLAND GEDDES' GOOD ADVICE

In Co-Operation, Not Competition, He Says, Lies Success for Britain and America

(Associated Press)

Minneapolis, Nov. 5.—Sir Auckland Geddes, British ambassador to the United States, in an address here today said that America and Great Britain must avoid national trade competition organized by the government or supported by political action. If the United States or Great Britain began to organize areas of exclusive economic advantage there would inevitably come a clash of interests that would at least strain the friendly relations of the two nations. He said the British motto was fair trade and equal opportunity.

MILLERAND DOES NOT HAVE A GUARD

Paris, Oct. 17.—President Millerand has amazed some of the old residents of Paris by appearing on the streets of the city apparently without a guard. Scores of persons recognized the French president when he walked the other day from the Elysee Palace through the Champs Elysees toward the Seine and his progress was marked by a succession of bows. Not a detective was in sight.

This is in sharp contrast to the practice of most former presidents. Few of them ever have ventured forth alone and in most cases they have been surrounded by a strong guard of detectives or police. M. Millerand's democratic conduct in this respect has caused much comment and increased his popularity.

SEVENTY BILLION MARKS SHORT

It Would Take About Four Billion Good American Dollars to Cover It Up

(Associated Press)

Berlin, Nov. 5.—Germany's treasury faces a deficit of seventy billion marks, Dr. Helfferich, former vice chancellor, declared in a speech in the reichstag. Minister of Finance Wirth said he would introduce a bill for a sacrifice tax and ask a credit of one billion marks to buy cereals abroad.

SILVER SPRINGS SCENE FOR THE FORD MOVIES

Silver Springs has again been the scene for the making of moving pictures. Since the first of the week two of the best operators in the country for the developing of moving pictures have been active at the Springs, securing scenes for a large picture that the Ford Educated Weekly will have on the screen very shortly. It is needless to comment on the pictures the Ford Educated Weekly is showing all over the country, for every one looks forward to seeing them each week.

These two gentlemen who are taking the pictures are from the moving picture department of the Ford Motor Co. and have gone to the very bottom of the springs for pictures. Now they are exceedingly anxious to complete their work tomorrow and desire the presence of the people of Ocala tomorrow morning between 10 and 11 o'clock. It is sincerely hoped that the town will be well represented as it means a big advertisement for Ocala. Let everybody get busy and ask everybody else to go to Silver Springs tomorrow morning. Just such advertising is the making of a town and by tomorrow's crowd our town's pride and spirit will be judged.

RECRUITS COMING WITH A RUSH

So Many Arriving that the Navy will Soon be Able to Send Ships to Sea

(Associated Press)

Washington, Nov. 5.—Recruiting for the navy is progressing so satisfactorily that navy officials believe it soon will be possible to send to sea a large number of vessels of all classes now tied up in the navy yards for the lack of crews. Recruits are entering the service at the rate of 2300 a week.

GERMAN WORKERS DON'T FAVOR A SOVIET

Berlin, Oct. 17.—The first congress of shop Soviets recently held here refused to go on record as favoring the soviet government of Russia. There was a sharp clash between the communists and independent socialists over the question but the motion was voted down. About 1000 delegates attended the meeting.

The workers in the German industrial and commercial establishments, who are now given an active voice in administration of them, were impressed in the congress with the need of conserving raw products so that Germany may produce sufficient finished commodities to enable her to establish credits abroad with which to pay for the importation of the most necessary food and raw materials.

Rudolph Wissel, formerly minister of economics, said that German textile and iron industries were in need of foreign supplies. The 28,000,000 tons of ore which Germany formerly obtained from Alsace-Lorraine and Luxembourg must now be procured through foreign credits. The Versailles treaty had deprived the nation of one-third of its grain producing areas while the remaining soil had been impoverished by intensified wartime cultivation and lack of fertilizers.

The former minister ascribed the present economic crisis to underproduction, denying that it was due to over consumption and he declared that Germany would be forced to subsist on small rations for a long time.

MARION COUNTY AT THE SOUTH FLORIDA FAIR

(By Frank L. Huffaker)

Just to more thoroughly establish in the minds of homeseekers from other and less favored states the fact that South Florida is as strong in the important matter of staple crop raising and thoroughbred stock breeding as in the production of golden citrus fruits and fancy-priced vegetables, the versatile county of Marion, of which Ocala is the county seat, is to be represented at the South Florida Fair by the largest and most varied exhibit brought down from that section since the old state fair days. Needless to say, that means "some" showing. The exhibit will be in charge of County Agent W. A. Sessions.

That the lands of Marion are equal to those of the corn belt of the middle west for staple crop production is well known to thousands; in fact, Marion county is really a "slice" of southern Illinois, Indiana and Ohio transplanted in Florida—with the climate and other advantages of Florida added. Thus a magnificent exhibit of the fifty-fifty variety—50 per cent staples and 50 per cent citrus fruit—is assured.

Marion is the pioneer county of Florida in the breeding of thoroughbred livestock of all kinds, having earned the honor through the activities of the late Z. C. Chambliss and other noted breeders. The breeders have won grand prizes in the past—and Marion is going out for another record in February.

The display of the celebrated Anthony Stock Farm of which E. C. Beuchler is general manager, would alone make the livestock feature of the fair complete. But to the showing of this farm, the largest general farm in the South, many others will be added from different counties of the state.

The Anthony farms will be represented by pure-bred Percheron stallions, mares and colts, jacks, jennets and mules, Aberdeen-Angus bulls, sows and calves, fat steers, sheep, goats and hogs. Additional space has been asked for by Mr. Beuchler, who is already preparing his entries for the "big show." Poultry will be another feature of the Marion exhibit.

Other counties of the same type have fallen in line for the forthcoming fair, and mention of these will be made in the daily papers later.

In every department the fair is going to eclipse those of past years by a wide, wide margin.

LOCAL LEGISLATION

The city council met in regular session Nov. 2nd, with all members present. Meeting called to order by the president. Minutes of the last regular meeting read and approved.

Mrs. C. R. Tydings and Mrs. H. C. Dozier appeared before the council and presented petition from several members of the Woman's Club and the president of the Rotary Club requesting that the city not sell the strips of land on both sides of North Main street, but reserve the same for the city's use as parkways. It was the sense of the council that the request be complied with.

Mrs. Tydings submitted report for the rest room for month of October. Mrs. F. G. B. Weihe also filed report as chairman of park committee. Read and filed for information.

Communication was read from Burford, Hall & Smith, thanking the council for first payment on installation contract and stating that General Electric company had definitely promised to ship the generator to Trenton on Nov. 13th, and that in about three weeks it will be necessary for the city to send an engineer to Trenton for making proper test. The city attorney was requested to prepare letter expressing the council's confidence in the integrity and ability of Mr. R. A. Burford Jr. and requesting that he make arrangement with some competent engineer who lives near Trenton to handle this for the city, asking, however, before final agreement is made that the city be advised as to the total expense it would incur for such services.

Request of I. O. Fender to redeem 84 feet east and west by 112 feet north and south in the southeast corner of lot 5 Scott's survey and pay omitted years taxes at valuation of \$200 was rejected upon motion of Mr. Winer, duly seconded by Mr. Thomas.

Request of Mrs. Mary A. Gillen for reduction on personal property not granted.

Bids for dwelling house on Main street were considered and that of J. H. Taylor for \$550 accepted, upon motion of Mr. Winer duly seconded and carried.

Monthly report of City Health Officer Watt read and accepted.

Upon motion of Mr. Winer duly carried city attorney was authorized to go to Tallahassee in the interest of the city in regard to paving suits.

Council thereupon adjourned until next regular meeting.

SAMUEL GOMPERS MAKES A STATEMENT

(Associated Press)

Washington, Nov. 5.—Samuel Gompers issued a statement today concerning the election, saying that "Every forward looking man and woman must feel some deep regret because of the great plunge toward reaction, but democracy will right itself at the proper time. A tabulation of Congress results shows a definite gain for all that makes for progress. The next Congress will show an increased number of men holding union cards." Mr. Gompers said the non-partisan policy of the federation was more justified than ever.
